

### ReversiDoor Plastic Access Panels

Unique hinged and reversible plastic access panels

Patent #GB2478636

- Easy to fit - saves time, effort & cost
- Unique reversible door
- Fits surface & flush in walls & ceilings
- Applicable to all trades
- Professional quality / decorate over
- Robust - superior to cheap imports
- Merchant POS available

### Part J Panel & Airtight Plastic Panel

Patent #GB2506738

Manufactured by Select to work in conjunction with Part J building regulations. Allows visual inspection of hidden flues for **non-fire rated** applications.

Our Part J Panel is also available with an airtight neoprene seal to reduce air movement through the panel, reducing heat loss and noise transfer. (SEL7108AT)

Both panels can be fit surface or flush, in walls and ceilings and have a textured surface for decorating over.

## PLASTIC PANELS

### Hinged Pro Panels (Walls & Ceilings)

Heavy duty, professional hinged plastic panels. Surface fit in walls and ceilings. Door is both hinged and removable creating unobstructed access.

200X200	SEL7174
