

**BOA - Reciprocating Tungsten Carbide Blades**

They will make quick work of hard or binding materials and will cut through an array of materials including cast iron, aluminium, glass, cement, brick, glazed and most natural stones.

**BOA - Reciprocating Bi-Metal Blades**

High quality blade that uses welded tip technology to give longer life cycle and better performance.

**BOA - Combo Drills 2 Drills in One**

The BOA Combo Drill combines the two biggest selling drill sizes; 6mm and 8mm in one unique tri-shank drill. This high-quality vacuum brazed drill with its patented design is now being manufactured in the UK. Aimed at the professional this drill will penetrate all files

**BOA - Diamond Flip Drill 2 drills in one**

The BOA Flip Drill is a double ended bit. This drill offers 2 identical vacuum brazed drilling ends and comes in three popular sizes; 6mm, 8mm and 10mm. 2 drills in 1!

**BOA - Diamond Drill with Water Cooling System Hex Shank**

Boa welded tip diamond drills are vacuum brazed for greater strength and endurance. Made in the U.K. they will cut Porcelain, Quarry, Terracotta, glazed Terracotta, glazed Terrazzo, Agglomerate, (concrete) Tiles and Glass.

**BOA - Professional Diamond Holesaws**

Uses leading edge diamond technology so these hole saws not only last longer, but they cut faster and more accurately and more importantly, through the hardest materials including class 5 porcelain.

**BOA - Diamond Holesaws - Tile Pro Range**

Diamond holesaws with intergrated arbour & pilot drill.
